## HF Cable Coiler

The HF-Cable Coiler is designed to coil the reefer power cable back into the cable tray, even when they are stacked in up to 4th tier.

## HF Y-Splitter

Distribute power for 2 reefer units only using 1 power outlet.  
Can be used on truck, terminal and vessel.

## HF Splitter Box

Electrical interlock system gives the best possibility of safe and easy operation on the splitterbox. MCBs to prevent any failer so it doesent interfere the power to the other reefer units.

## HF Marine Plug

Easy, fast and safe handling during the switching process of the container between trucks and vessels.  
Standard Plug 3H

## HF Container Flex III

Uv and oil resistant, flame retardant.  
Wear-resistant Design 4x4mm<sup>2</sup> and 4x2,5mm<sup>2</sup>

## HF Fast Splice Kit III

Splice power cables in a quick, secure and consistent manner, reducing the risk of fire and electric transition.
